Bill Harland Joins ERI as Product Line Manager, Antenna Division

Chandler, Indiana — March 31, 2003 — Bill Harland has joined Electronics Research as Product Line Manager for the company's Antenna Division. Harland has held product line and sales management positions in the broadcast equipment industry for more than 25 years. His most recent positions have included the positions of account manager and product line manager for Andrew Corporation's Broadcast Systems business and prior to that as Director of Domestic Sales for Broadcast Electronics.

In this newly created position, Harland will be charged with providing guidance for ERI's new product development efforts and will also be responsible for developing new systems and tools to allow the company to be more responsive to antenna and filter system customer requirements. He will also be charged with launching the company's new television antenna product line.

Kinsley Jones, Engineering and Marketing Manager for ERI's Antenna Division said "We are lucky to have someone with Bill's experience in both radio and television sides of the broadcast equipment industry join ERI. He is uniquely suited to provide the company with the direction need to enter the television antenna business as well as maintain ERI's dominance in the FM antenna market.

Harland said of joining the ERI "I am very excited to become a part of the finest engineering and manufacturing organization in the broadcast industry. The depth of experience, knowledge, and skill sets within the company are not matched by any other

company in the broadcast business. There is no other company in the business positioned with better prospects and more opportunity than ERI.”

Harland will be based at the company’s headquarters and manufacturing facility in Chandler, Indiana.
