

## Electronics Research, Inc. Announces the Appointment of Paul Dadian as Mid-Tier Account Manager for Radio Sales

**Chandler, Indiana – September 18, 2009** – Jim Hauptstueck , Director of Domestic Radio Sales for Electronics Research, Inc., announced today that Paul Dadian has assumed responsibility for sales of ERI's RF and Structural products to the mid-tier market as well as individual radio stations and radio group owners.

Dadian was previously Broadcast Sales Manager for iBiquity Digital Corporation and held the position of Broadcast Sales Supervisor with Harris Corporation's Broadcast Communications Division.

Hauptstueck commented that, "Paul brings to ERI an exceptional background in building and maintaining relationships with mid-tier radio groups. We feel his skill set and dedication coupled with ERI's product offering will be invaluable to our customers."

Dadian's office will be located in West Chester, Ohio and he can be contacted by telephone at +1 (513) 847-1220 or by e-mail at PDadian@eriinc.com.

### **About Electronics Research, Inc.**

Founded in 1943, Electronics Research, Inc. delivers high quality, innovative, integrated solutions to broadcasters across the spectrum and around the world. Our dedicated staff of engineers, designers, fabricators, and project managers take pride in contributing to your success by providing AM, FM, VHF, UHF, BRS-EBS, and Mobile Media broadcast systems including the industry's best antenna, transmission line, filter and combining, and tower and structural support systems. In addition to manufacturing the full range of broadcast system components and installation accessories, ERI offers all of the broadcast services needed to plan, install, optimize, and maintain your broadcast facility. We are your single source for broadcast solutions.
