

Check List

Six Quick Crew Checks for On-Site Engineers

- Does the crew have a climber certification program?
- Does the crew have a site safety plan (emergency phone number's, site address, etc)?
- Does the crew have a written rigging plan?
- Does the crew have a man rated hoist?
- Does the crew post your site?
- Does the crew wear hard hats?

This list is intended as a starting point for maintaining a safe tower site. It does not constitute any guarantee of safety but is intended to point out some of the major indicators of unsafe work practices.
